

Grades K-2

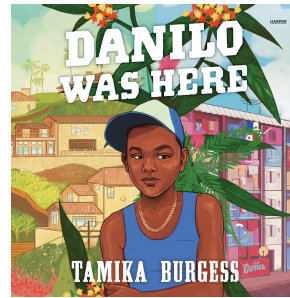

Grades 3-5

Why should schools and students participate?

Schools should participate in the *Latino Books Award* to deepen students' connection to reading and to open space for meaningful conversation.

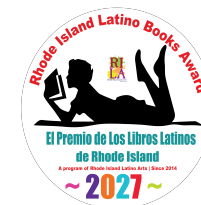

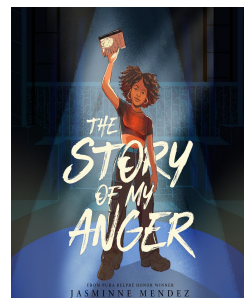

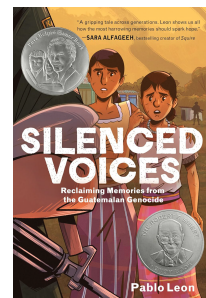

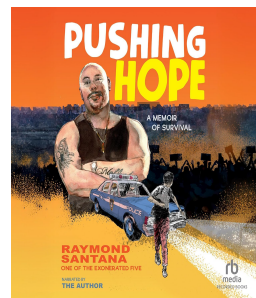

Grades 6-8

Selected books reflect Latino cultures and identities and many of the stories feel familiar to students' lives.

When students vote, they realize that their opinions matter in a statewide vote.

Grades 9-12

For many students, this is the first time they have seen themselves reflected in a book or asked what they think about what they are reading.
